Objective

Passionate Computer Science graduate with strong experience in Artificial Intelligence, Deep Learning, and back-end development. Skilled in building real-world AI systems and scalable APIs. Seeking opportunities in software development, AI engineering, or research roles.

Education

B.Tech in Computer Science and Engineering

APJ Abdul Kalam Technological University

CGPA: 8.32 (up to latest semester)

Projects

Deepfake Detection System

- Developed a deep learning system using Vision Transformer and Wav2Vec2 for detecting fake videos
- Combined visual and audio analysis to improve detection accuracy
- Built end-to-end pipeline for preprocessing, inference, and output generation

Driver Assistance System

- Built real-time drowsiness detection system using OpenCV and deep learning models
- Integrated alert system and emergency notification with GPS location tracking
- Improved driver safety through fatigue detection and accident response system

AI Image Generation System (Stable Diffusion + ComfyUI)

- Designed AI-based system for generating high-quality images using Stable Diffusion
- Integrated ComfyUI for node-based workflow and customizable generation pipeline

Skills

Languages: Python, Java, C, JavaScript, SQL

Frameworks: Flask, FastAPI

AI/ML: TensorFlow, PyTorch, OpenCV, Computer Vision, Deep Learning

Tools: Git, Docker, Firebase, Jupyter Notebook, Google Colab, VS Code

Experience

AI Intern – Edunet Foundation (MS AINSI)

- Completed AICTE internship in collaboration with Microsoft
- Worked on ML/DL concepts including classification and neural networks
- Developed project solutions under mentor guidance

Intern – Edunet Foundation (TechSaksham)

- Gained hands-on experience in Data Analytics, ML, DL, and Generative AI
- Worked on real-world problem statements and project prototypes

Python Developer Intern – Mallikarjuna Infosys

- Developed and tested Python applications following best practices
- Implemented algorithms, optimized code, and integrated APIs

Certifications

- NPTEL Robotics (IIT Kharagpur) – Elite
- Python Certification – CADD Centre

Activities

- NSS Volunteer
- PACE Coordinator (Project for Accident-Free Campus Environment)

Languages

Malayalam, English, Hindi
